

13th Annual Fall Prevention Awareness Week

Balance and Memory Screenings

Free Community Events

Balance Screening

Join us for a free balance screening conducted by physical (PT) and occupational therapy (OT) students and learn ways to decrease your risk.

Memory Screening

Whether you are experiencing memory loss right now or are simply concerned about the future, this is an opportunity to have a brief memory screening and receive results to share with your healthcare provider.

NEW THIS YEAR – Vaccines by CVS pharmacy!

Shingles, pneumonia, flu, and COVID vaccines available provided by CVS at **MOST SOUTHERN LOCATIONS**.

Participants will receive:

- A copy of your screening assessments to share with your primary healthcare provider.
- Resources and tools to improve your health and wellbeing including vaccinations.
- Access to other healthcare professionals such as pharmacist, PT & OT, dietitian, mental health expert.
